

# vIT Director

## Expertise when you need it

Digital transformation dominates today's world, but you may not have the time to research advancements in technology pertinent to your industry to enable growth and modern practice. Techn22 can help you minimise risks, increase efficiencies and plan to achieve your goals, saving you the cost of employing a permanent IT director and interim manager.

Our Virtual IT Director service gives you the flexibility of an experienced IT professional at the time your business needs it, ensuring you have a specialised voice driving strategic investment and efficient use of technology.

## Why choose a vIT Director?

Most SME's do not have board level representation for technology and digital transformation. This is often due to the high cost of employing a full time individual to fulfil this role. A vIT Director is an expert, impartial resource who will help to guide your information and technology strategy, without hefty overheads:

- Flexible resource – onsite once a week or as needed
- Temporary or for the long-term
- Flexible up and down according to the business requirements
- Strategic guidance and alignment, staff development or up skilling
- IT projects management
- Business and IT alignment, critical to modern business success and efficiency

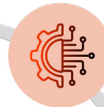

### PROJECT MANAGEMENT

Technology led projects can be risky if not managed by an experienced IT professional. Our service can lead the overall responsibility to ensure a successful implementation.

### TECHNOLOGY CURVE

This is always changing, for every business. It's a race to keep up and keep ahead of your competitors. Our vIT Director service researches technology pertinent to your business, advising you on costs and adoption.

### BUDGETING

You need someone who can unravel the whole project ensuring all costs are included in your IT budget. Our vIT Director service knows all the hidden costs. No nasty surprises.

### COMMUNICATION

Our vIT Director understands that technology has its own language! We are here to cut through all the jargon and translate into plain English.

## How a vIT Director can help you

### DECISION MAKING

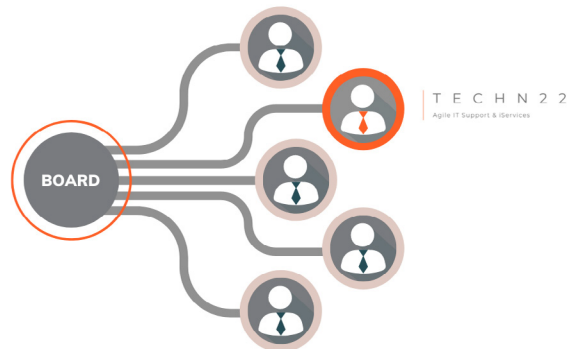

A vIT Director has the technical and commercial experience to help you make those important decisions to ensure your business achieves its technology goals efficiently.

# How Techn22 can help you

Your Techn22's Virtual IT Director will be an active member of your team at board level, assisting in making strategic decisions when it comes to the IT strategy of the business, and driving change.

- On-site and virtual visits
- Tactical support and assistance
- Working alongside internal teams
- Assistance in restructuring existing IT according to overall strategy
- Improving efficiencies and leading projects
- Mentoring, coaching and training
- Restructuring / auditing it systems for sale or acquisitions
- Advise on agile environments for remote working

## Final step

The vIT Director can be invited to four board meetings each year but is dependent on your specific needs and reporting requirements.

**CONTACT US TO ARRANGE A FREE, NO OBLIGATION MEETING TO DISCUSS YOUR CURRENT SITUATION AND HOW WE CAN HELP YOU AND YOUR BUSINESS RESOLVE YOUR MOST CRITICAL INFORMATION AND TECHNOLOGY NEEDS AND CHALLENGES.**
